**** External email. Use caution. ****

DeAnn,

The first page of Form C-141 along with the executive summary, photos and notification need to be attached to the closure report document so the release can be closed.

Also in the future its helpful to take a wide angle photo of the release area along some close up photos of the liner.

Thanks,

Cory Smith

To Whom It May Concern,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

Thank you,

DeAnn Grant
