Subject: [EXT] Extension Request- Corral Canyon Central Tank Battery (2RP-5550)

All,

XTO is requesting an extension for the current deadline of October 2, 2019 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Corral Canyon Central Tank Battery (2RP-5550). The release was discovered July 4, 2019. Initial site assessment began August 16, 2019. However, ongoing frac and flowback operations in the area as well as facility upgrades in the area prevented further remediation work. XTO has started remediation work at this site as well as several others in the Corral Canyon area this week. To provide enough time to finalize remediation work and the complete a remediation work plan or closure report, XTO requests a 60-day extension of the deadline until December 1, 2019.

Thank you,

Kalei Jennings
