**RE: XTO-Extension Request- PLU Pierce Canyon 28 Fed (NRM1931858285/NCE2002742193)**

Ms. Jennings,  
OCD approved an extension to July 2, 2020 for PLU Pierce Canyon 28 Fed (NRM1931858285/NCE2002742193).  
Thank you,

Victoria Venegas  
State of New Mexico

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** [EXT] XTO-Extension Request- PLU Pierce Canyon 28 Fed (NRM1931858285/NCE2002742193)

All,

XTO is requesting an extension to the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the PLU Pierce Canyon 28 Fed. There were two releases discovered between October 07, 2019 through November 13, 2019. Remediation activities are currently ongoing for both releases. Due to the proximity of production equipment some areas have been treated with microblaze. Laboratory analytical results collected after the microblaze treatment and further soil removal indicate further remediation activities are needed. To provide enough time for further site assessment, remediation work, and the completion of a remediation work plan or closure report, XTO requests an extension of the deadline to October 5, 2020.

Thank you,

Kalei Jennings
