Ms. Jennings,
Your request for an extension to August 20, 2020 is approved.
Thank you,

Victoria Venegas

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] XTO- Extension Request- Remuda South 25 #126H (Incident Numbers: (NRM1935840155, NRM2000235975, and NRM2000237294)

All,

XTO is requesting an extension to the current deadline of May 20, 2020 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Remuda South 25 #126H. There were three releases discovered between October 22, 2019 through October 25, 2019. Drilling operations have been ongoing and to ensure the safety of all personnel and the environment, non-essential personnel are not permitted on site. This has prevented XTO from initiating site assessment and remediation work. Regular updates of the operational will continue to be provided to ensure that work begins as soon as the production operations are complete. To provide enough time to fully assess the site and conduct remediation work, XTO requests a 90-day extension of this deadline until August 20, 2020.

Thank you,

Kalei Jennings
