OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] XTO-Extension Request- Poker Lake Unit CVX JV BS #010H (Incident Number: NRM2002150698)

All,

XTO is requesting an extension to the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Poker Lake Unit CVX JV BS #010H (Incident Number: NRM2002150698). The release was discovered November 4, 2019 and initial site assessment was conducted. Remediation activities are currently ongoing, and the most recent laboratory analytical results indicate further remediation work is warranted. In order to complete the remediation work and submit a remediation work plan or closure report XTO requests a 60-day extension of this deadline until June 29, 2020.

Thank you,

Kalei Jennings
