RE: XTO-Extension Request- Poker Lake Unit 25 Brushy Draw 901H (Incident Number: NRM2005839143)

Ms. Jennings, Your request for an extension to August 11, 2020 is approved. Thank you,

Victoria Venegas State of New Mexico Energy, Minerals, and Natural Resources Oil Conservation Division 811 S. First St., Artesia NM 88210 (575) 748-1283 <u>Victoria.Venegas@state.nm.us</u>

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] XTO-Extension Request- Poker Lake Unit 25 Brushy Draw 901H (Incident Number: NRM2005839143)

All,

XTO is requesting an extension for the current deadline of May 11, 2020 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Poker Lake Unit 25 Brushy Draw 901H (Incident Number: NRM2005839143). The release was discovered February 11, 2020. Operations have been ongoing and to ensure the safety of all personnel and the environment, non-essential personnel are not permitted on site. This has prevented XTO from initiating site assessment and remediation work. The most recent update provided by the operations team stated the drill out was complete, next steps would be flowline installations then flowback operations. Operational updates will be provided to ensure that work begins as soon as the flowback operations are complete. To provide enough time to fully assess the site and conduct remediation work, XTO requests a 90-day extension of this deadline until August 11, 2020.

Thank you,

A proud member of WSP Kalei Jennings Project Environmental Scientist (432) 214-9472 *cell* 3300 North "A" Street Bldg 1, Unit 222 Midland, TX 79705 www.ltenv.com
