RE: Incident #NRM2013660346

Tacoma,

Your request for an extension to October 31st, 2020 is approved. XTO is requesting an extension to the 90-day deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the James Ranch Unit 31 (NRM2013662346). The release was discovered May 2, 2020 and an initial site assessment was conducted. Fluids released flowed along a lease road into the surrounding pasture. A Right of Entry (ROE) Permit was submitted to the State Land Office (SLO) on June 3, 2020. The executed permit is still pending. XTO will begin remediation activities as soon as the executed permit is received. In order to conduct further site assessment, complete the remediation work, and submit a remediation work plan or closure report XTO requests an extension of this deadline until October 31, 2020.

Thank you,
