NMAP1828463427 NM MAIN HEADER @ FMAP1828359790 2RP-5001

Mr. Raley,

The OCD has approved the Final C-141 for incident NMAP1828463427 NM MAIN HEADER @ FMAP1828359790 2RP-5001. No further action is required at this time and the signed C-141 can be found in the online image data base under the incident #.

NOTE: The Depth to groundwater has not been established. When nearby wells are used to determine depth to groundwater, the wells should be no further than ½ mile away from the site, and data should be no more than 25 years old, and well construction information should be provided. However, because the site has been remediated to the most stringent cleanup levels listed in Table 1, the Division approves this closure request.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
