The OCD has denied the Closure Report C-141 for incident # for the following reasons:

- The liner integrity has not been correctly evaluated. The photos provided in the Closure Report show that there is still material that needs to be removed to expose the liner in the affected area.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
