Mr. Dittrich,

Regarding the Conditions of Approval of incident **NRM2005141013** CYPRESS 28 FED 4H @ 30-015-39330, I want to clarify the following:

- The closure report must comply with the Closure Requirements of the spill rule, i.e. 19.15.29.12.D (1)(a), (b), (c)
- Five-point composite confirmation floor samples and sidewall samples, should be collected at a frequency of no more than one sample per 200 square feet.
- Sidewalls samples should not exceed 600 mg/kg for chlorides and 100 mg/kg for TPH.

This email can be found in the online image data base under the incident #.

Thank you,

Victoria Venegas

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
