RE: Incident # **NRM2005160694**

**Tacoma,**

Your request for an extension to **February 5th, 2021** is approved. This will be the **final extension** for this release. XTO is requesting an extension for the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Poker Lake Unit 21 Brushy Draw 903H (NRM2005160694). The release was discovered February 5, 2020. Drilling, frac and flowback prevented non-essential personnel from conducting remediation work to ensure the safety of all personnel and the environment. Operational updates were provided regularly to ensure that work began as soon as the operations were completed. The Site has been cleared of operations and is accessible. XTO conducted a site assessment on October 22, 2020 and further remediation work including excavation of impacted soils is scheduled to begin this week. To provide enough time to fully assess the site and conduct remediation work, XTO requests an extension until February 5, 2021.

Thank you,

Robert J Hamlet

**Subject:** [EXT] XTO-Extension Request- Poker Lake Unit 21 Brushy Draw 903H (NRM2005160694)

All,

XTO is requesting an extension for the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Poker Lake Unit 21 Brushy Draw 903H (NRM2005160694). The release was discovered February 5, 2020. Drilling, frac and flowback prevented non-essential personnel from conducting remediation work to ensure the safety of all personnel and the environment. Operational updates were provided regularly to ensure that work began as soon as the operations were completed. The Site has been cleared of operations and is accessible. XTO conducted a site assessment on October 22, 2020 and further remediation work including excavation of impacted soils is scheduled to begin this week. To provide enough time to fully assess the site and conduct remediation work, XTO requests an extension until February 5, 2021.

Thank you,
