RE: Incident #**NRM2023059703**

Chase,

EOG's request for an extension to **November 20th, 2021** is approved. EOG Resources, Inc. requests an extension to 11/20/2020 for the Characterization Plan for the below site. Due to Covid-19 guidelines, they were unable to access the office to put the Characterization Plan together. There are multiple documents that have to be printed and put together before being scanned as one complete document to be submitted to NMOCD for approval. The site is fully delineated and excavated, with soil bioremediation already being conducted on the impacted soils.

Thank you,

Robert J Hamlet

Subject: [EXT] Characterization Plan Extension Request (NRM2023059703)

EOG Resources, Inc. respectfully requests an extension to 11/20/2020 for the Characterization Plan for the below site. Due to Covid-19 guidelines, we are unable to access the office to put the Characterization Plan together. There are multiple documents that have to be printed and put together before being scanned as one complete document to be submitted to NMOCD for approval. With current Covid-19 guidelines, we do not have anyone cleared to be in the office at this time to put the Characterization Plan together. The site is fully delineated and excavated, with soil

bioremediation already being conducted on the impacted soils. The requested extension is just until we can get someone in the office to put the plan together.
