RE: Incident #**NRM2025263987**

Kalei,

XTO's request for an extension to **February 16th, 2021** is approved. XTO is requesting an extension for the current deadline of November 18, 2020 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at PLU 28 BS 158H (NRM2025263987). The release was discovered August 20, 2020 during frac operations when a disk failed causing the fluid to be released into containment. Operations have been ongoing and to ensure the safety of all personnel and the environment, non-essential personnel are not permitted on site. This has prevented XTO from initiating site assessment and remediation work. Operational updates will be provided to XTO's environmental group to ensure that work begins as soon as the flowback operations are complete and the Site is cleared. To provide enough time to fully assess the site and conduct remediation work, XTO requests a 90-day extension of this deadline until February 16, 2021.

Thank you,

Subject: [EXT] XTO-Extension Request- PLU 28 BS 158H (NRM2025263987)

All,

XTO is requesting an extension for the current deadline of November 18, 2020 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at PLU 28 BS 158H (NRM2025263987). The release was discovered August 20, 2020 during frac operations when a disk

failed causing the fluid to be released into containment. Operations have been ongoing and to ensure the safety of all personnel and the environment, non-essential personnel are not permitted on site. This has prevented XTO from initiating site assessment and remediation work. Operational updates will be provided to XTO's environmental group to ensure that work begins as soon as the flowback operations are complete and the Site is cleared. To provide enough time to fully assess the site and conduct remediation work, XTO requests a 90-day extension of this deadline until February 16, 2021.

Thank you,

Kalei Jennings
