RE: Incident #NAB1915432422

Brittany,

COG's request for an extension to **February 19th, 2021** is **denied**. **COG** will have 30 days to submit a closure report to the payment portal. The OCD approved the remediation plan October 2nd of 2019. It is important that chloride contaminated soil be removed before it moves down the soil column toward groundwater. Produced water spills need to be cleaned up within the time constraints outlined in the OCD Spill Rule. Please plan accordingly in the future.

Subject: [EXT] (Extension Request #1) Condor State 001H (1RP-5518) 05-07-2019

To Whom It May Concern,

Under the new spill rule a Closure Report is due for the above release on November 24, 2020. COG submitted a Work Plan for the site for review and approval. The NMOCD

approved Work Plan on October 7, 2019 and the State Land approved the Work Plan on September 24, 2020. We have selected and setup with a contractor we are currently pending contractor availability to start the proposed remediation. COG is requesting a three-month extension until February 19, 2021 to completed the remediation. Please contact me if you have any questions.

Thank you,

Brittany N. Esparza
