Dear Operator:

On July 26, 2004, a letter was sent to you notifying you that the wells listed (see attached) were due for a bradenhead mechanical integrity test on August 17, 2004. Your representative was to meet the inspector at the Artesia Metex Unit #12 at 9 a.m.

No company representative was on site to witness the **required** test so therefore no test was accomplished.

To comply with guidelines established by the U.S. Environmental Protection Agency, the well(s) **must be shut-in immediately and remain shut-in** until such time as they can be properly tested.

Your office may contact Mr. Gerry Guye at (505)748-1283 x 105 to arrange a new scheduled test date.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerry Guye", with a long horizontal flourish extending to the right.

Gerry Guye  
Deputy Field Inspector  
District II - Artesia
