RECEIVED

OCT 28 2004

OCD-ARTESIA

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Hole in heater treater leaked 20 bbls oil inside the berm area, treater is being replaced, and dirt is being removed from berm.

Describe Area Affected and Cleanup Action Taken.*

Inside battery berm, the affected soil will be removed, remaining soil will be tested and brought to OCD standards, and the berm will be refilled. The ranking for this location is Depth to water-0, Wellhead protection-0, Surface water-0.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCDD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCDD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCDD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
