Re: Hubble 28 State Com #1
Unit E. Section 28-19S-28E
Eddy County, NM
30-015-30782

Dear Sir:

We are in receipt of a produce or plug letter from you, dated 12/3/2004 for the captioned well. We respectfully request a 90 day extension to evaluate this well.

We have submitted a Sundry for the Telescope 28 State Com #1 to add additional perforations to the Telescope to increase the production in this well. We believe the outcome of this work will reflect what we may be able to do to produce the Hubble.

Your consideration of this request is appreciated.

Sincerely,

YATES DRILLING COMPANY

Karen J. Leishman
