	200 feet or more, but less than 1000 feet	(10 points)	

If this is a pit closure: (1) attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite box if			
your are burying in place) onsite X offsite If offsite, name of facility (3) Attach a general description of remedial action taken including remediation start			
date and end date. (4) Groundwater encountered: No 🗌 Yes 🔲 If yes, show depth below ground surfaceft. and attach sample results. (5) Attach soil sample			
results and a diagram of sample locations and excavations.			
Additional Comments: Closure work plan for Drill pits constructed before April 15, 2004. Plan to deep bury pits contents with 3' of top soil and Mud seed in the proper seed			
mixture .Reclamation photos will be on file at Yates Pertoleum Corporation. The Oil Conservation Division Will be notified 48 hours before pit closure actions began.			
— Any new pit will			
\mathbf{c}			
require a permit as			
per Rule 30			
**			

1000 feet or more

Ranking Score (Total Points)

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines \Box , a general permit X, or an (attached) alternative OCD-approved plan \Box . Date: _11/11/2004_

Printed Name/Title_Mike Stubblefield Reclamation Agent Signature mile Stelliel

Your certification and NMOCD approval of this application/closure does not relieve the operator of liability should the contents of the pit or tank contaminate ground water or otherwise endanger public health or the environment. Nor does it relieve the operator of its responsibility for compliance with any other federal, state, or local laws and/or regulations.
