Yates Petroleum Corporation request to extend the captioned well's APD expiration date for one (1) year to March 3, 2006.
Sources at Yates Petroleum Corporation have relayed information to me that they believe there will not be enough H2S found from the surface through the Basement Formation to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118.
Any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines with an approved general permit on file.
Thank you,
C144 approved 11/5/04 attached.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☒ or an (attached) alternative OCD-approved plan ☐.
