| Describe Area Affected and Cleanup Action Taken.*<br>Initially 12bbls of oil and 3bbls of water were released from the stuffing box on the wellhead. We were able to recover 11bbls of oil and 2bbls of produced water with a vacuum truck. All free fluids have been recovered. COG Operating, LLC sampled the spill site area to delineate any possible contamination from the release and is submitting this document to NMOCD/BLM for closure of the release.  |  |   |  |                            |  |
| I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. |  |   |  |                            |  |
