NATURE OF RELEASE

|		
Type of Release: **PW**	Volume of Release: **66 bbls PW**	Volume Recovered: **0 bbls**
Source of Release: **Livestock opened valve**	Date and Hour of Occurrence **9/23/2014**	Date and Hour of Discovery **9/23//2014; 2:00 pm**
Was Immediate Notice Given? ☒ Yes ☐ No ☐ Not Required	If YES, To Whom? **OCD via email**	
By Whom? Kimberly M. Wilson	Date and Hour: 9/25/14 @ 2:39 pm	
Was a Watercourse Reached? ☐ Yes ☒ No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*   On September 23, 2014 a valve was opened by livestock causing the release of 66 barrels of produced water. No fluids were recovered due to flooding. The flow path subsequently moved south across the location. The valve was closed. The area affected southeast of the load-outs encompassed an area approximately 243-feet long and 8 to 10-feet wide. The flow path left the location to the south and into the pasture approximately 75-feet long by 25-feet wide.

Describe Area Affected and Cleanup Action Taken.*   **Talon/LPE was contracted by Oxy for the correction of this release. Pursuant to our work plan approved by the NMOCD, the impacted area at sample location S-1 was excavated to a depth of 1-feet deep. The impacted area in the vicinity of sample location S-2 was excavated to a depth of 1.5-feet deep. All contaminated soil was transported to Lea Land, LLC, a NMOCD approved solid waste disposal facility. The excavated areas were backfilled with clean caliche and contoured to match the surrounding location.   No further actions are required.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
