Form C-141
Revised August 8, 2011

Submit 1 Copy to appropriate District Office in accordance with 19.15.29 NMAC.

Release Notification and Corrective Action

nAB1521255814 **OPERATOR** ☐ Initial Report ☒ Final Report

Name of Company ALAMO PERMIAN RESOURCES, LLC	Contact CARIE STOKER
Address 415 W. WALL ST. SUITE 500	Telephone No. 432 664 7659
Facility Name: HUMBLE STATE/SINCLAIR A ST	Facility Type: BATTERY

Surface Owner STATE	Mineral Owner	API No. 30-15-03005

LOCATION OF RELEASE

	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
	19	17S	29E	1980	S	452	W	EDDY

NATURE OF RELEASE

Type of Release: OIL	Volume of Release: 56 BBLS	Volume Recovered: 45 BBLS
Source of Release: OIL TANK	Date and Hour of Occurrence: JULY 29, 2015; AM Central Time	Date and Hour of Discovery JULY 29, 2015; AM Central Time
Was Immediate Notice Given? ☒ Yes ☐ No ☐ Not Required	If YES, To Whom? MIKE BRATCHER via PHONE	
By Whom? Carie Stoker	Date and Hour JULY 29, 2015, 2:05 P.M.	
Was a Watercourse Reached? ☐ Yes ☒ No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Cause of Problem: Oil tank was struck by lightning
Remedial Action Taken: Vacuum truck dispatched to remove any standing oil (recovered 45 bbls); Scraped top soil with backhoe

Describe Area Affected and Cleanup Action Taken.*

Area Affected: Leak affected area extends outside of the battery containment wall to a nearby COG well; Souder, Miller & Assoc. conducted field screening of the affected areas. All samples indicated by field screening that the soils at the surface are at background levels of chlorides. Excavation was conducted to one foot bsg in the spill area to remove the soils affected. Approximately 30 cubic yards of contaminated soil were removed and replaced with clean backfill material to bring the excavated area to surface grade. All contaminated soil was placed on a liner, and fertilizer and water were added to support remediation of the impacted soil. The remediated soil will be used to reconstruct a secondary containment around the Humble State/Sinclair A battery. Please see the attached report for further details.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
