Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		Date and Hour	12/27/09	
If a Watercourse was Impacted, Describe Fully.*		If YES, Volume Impacting the Watercourse.			
N/A		N/A			

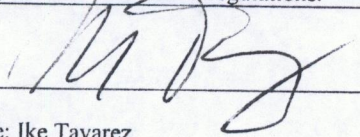

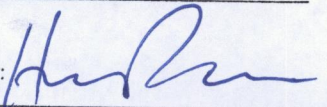

**Describe Cause of Problem and Remedial Action Taken.\***

Cause by a plugged water meter on a heater which then sent too much fluid to tank outrunning the equalizer.

**Describe Area Affected and Cleanup Action Taken.\***

The spill was contained inside the facility firewalls. The spill migrated into an open excavation (10' x 30') performed during a previous release, which was in progress. The area was assessed evaluate the spill. The impacted soils above the RRAL were removed and hauled to CRI for disposal. The excavations was been backfilled with clean soil. A closure report has been prepared and submitted to the NMOCD for review and approval.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
