Subject: CLOSURE REPORT: Oxy - Cypress 34 Fed #10H burial trench
Attachments: CompleteClosureReport_Cypress10H.pdf

Ms. Patterson and Mr. Bratcher:

On behalf of Oxy USA, please find the attached Closure Report/Final C-144 for the **Cypress 34 Federal #10H Burial Trench** (Permit #P2-13-0028). The trench was closed using the in-place burial method. We understand that NMOCD cannot formally release the site until re-vegetation is documented. The surface will be seeded in the spring using BLM prescriptives. When the surface is restored to the Pit Rule requirements, NMOCD will be provided the necessary documentation for closure.

Thank you.
