Describe Cause of Problem and Remedial Action Taken.* BOPCO pumper reported that the packing in the stuffing box failed. A vacuum truck was called to the location and was able to recover 10 barrels of oil from around the wellhead.		
Describe Area Affected and Cleanup Action Taken.* The majority of the fluid collected around the wellhead, a vacuum truck was called to the location and was able to recover 10 barrels of oil. The release area was remediated in conjunction with one other release; 2RP-3516. Contaminated soil was excavated and hauled to a state approved disposal facility and samples were collected. Based on laboratory analytical data and NMOCD approval the excavation has been backfilled with clean soil.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
