Corrosion of an intake pipe in the pump building caused 11 bbls of produced water to leak onto the ground. No fluids were recovered and the pipe was repaired or replaced.

Describe Area Affected and Cleanup Action Taken.\*  
The affected area is approximately 62' x 50' inside the pump building. Remediation was completed in accordance with a remediation plan approved by both Mike Bratcher of NMOCD via email on 03/16/2016 and by Randal Pair of the BLM.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
