Latitude 32.7866 Longitude -103.9370

NATURE OF RELEASE

Type of Release	Oil	Volume of Release	188 bbls	Volume Recovered	2 bbls
Source of Release	Oil tank bottom rotted out	Date and Hour of Occurrence	5-30-2016	Date and Hour of Discovery	1500
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? N/A			
By Whom?	N/A	Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*
 N/A

Describe Cause of Problem and Remedial Action Taken.*
 A hole developed in the bottom of an oil tank inside containment. Release was contained inside the dirt containment. Some leached through the berm walls onto the pad area. Nothing off pad. Soil samples were collected throughout the affected area and analyzed for BTEX, TPH, and chloride. Contaminated soil was excavated and hauled to Lea Land Landfill, LLC.

Describe Area Affected and Cleanup Action Taken.*
 Contaminated soil was excavated down to approximately 4 feet bgs and disposed at Lea Land Landfill, LLC (NM1-35-0). Residual hydrocarbons above the RRAL remain in the vicinity of the tanks and cannot be removed without damaging integrity of the tanks. Groundwater occurs at approximately 270 feet bgs therefore EOG requests deferral for remediation of residual hydrocarbons until abandonment per telephone conference with OCD District 2 environmental representative, Heather Patterson, on August 24, 2016.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
