Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.							
I hereby certify that the info	rmation given above is true and complete to the	best of my knowledge and understand that pursuant to OCD rules and					
regulations all operators are	required to report and/or file certain release noti	fications and perform corrective actions for releases which may endanger					
public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have							
failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141-report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws							
and/or regulations.
