FORM APPROVED
OMB No. 1004-0137
Expires: July 31, 2010

SUNDRY NOTICES AND REPORTS ON WELLS
Do not use this form for proposals to drill or to re-enter an abandoned well. Use Form 3160-3 (APD) for such proposals.

SUBMIT IN TRIPLICATE - Other instructions on page 2.

1 Type of Well

☐ Oil Well ☒ Gas Well ☐ Other

2. Name of Operator
MURCHISON OIL & GAS, INC.

3a. Address
1100 MIRA VISTA BLVD
PLANO, TX 75093-4698

3b. Phone No. (include area code)
972-931-0700

4 Location of Well (Footage, Sec., T., R., M., or Survey Description)
SEC 10 T25S R26E SWNE 1650 FNL 1650 FEL *ULG*

5. Lease Serial No
NMNM19423

6. If Indian, Allottee or Tribe Name

7. If Unit of CA/Agreement, Name and/or No.

8. Well Name and No.
WHITE CITY FED 10 COM 1

9. API Well No
30-015-22396

10. Field and Pool or Exploratory Area
WHITE CITY, PENN

11. Country or Parish, State
EDDY COUNTY, NM

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Murchison Oil & Gas, Inc. respectfully requests 120 days additional time to further evaluate workover options for this well and to implement those plans. We recently ran a bottom-hole pressure buildup test 7/15/11 - 7/25/11 in this well. The results of the BHPBU test show the current completion in the Cisco Canyon to be extremely low permeability. We are surprised by this, and are reconsidering our plans to further stimulate this current zone. We would like to have the additional time to evaluate our options of stimulating this zone or recompleting higher to test additional prospective zones. Once we have decided on a plan, we expect it will take some time to schedule the necessary services in this busy industry environment. Please be assured that we will workover this wellbore and bring it back to production, or we will P&A the well
