13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Well is to be fracture treated 8/29/11 and production facilities installed in the first two weeks of September. The BLM "Special Requirements" stipulate that a leak detection plan be submitted for approval. The tank battery will be lined with a 20 mil permanent liner with 4 oz felt backing and bermed sufficiently to contain 1 1/2 times the largest tank. All lines and valves from the well to the facility and inside the bermed area will be above ground. They will be visually inspected 1 - 2 times daily by the lease operator for any leaks or potential leaks
