## Closure Summary

Pursuant to Pit and Below-Grade Tank Guidelines as published November 1, 2004 by the New Mexico Oil Conservation Division.

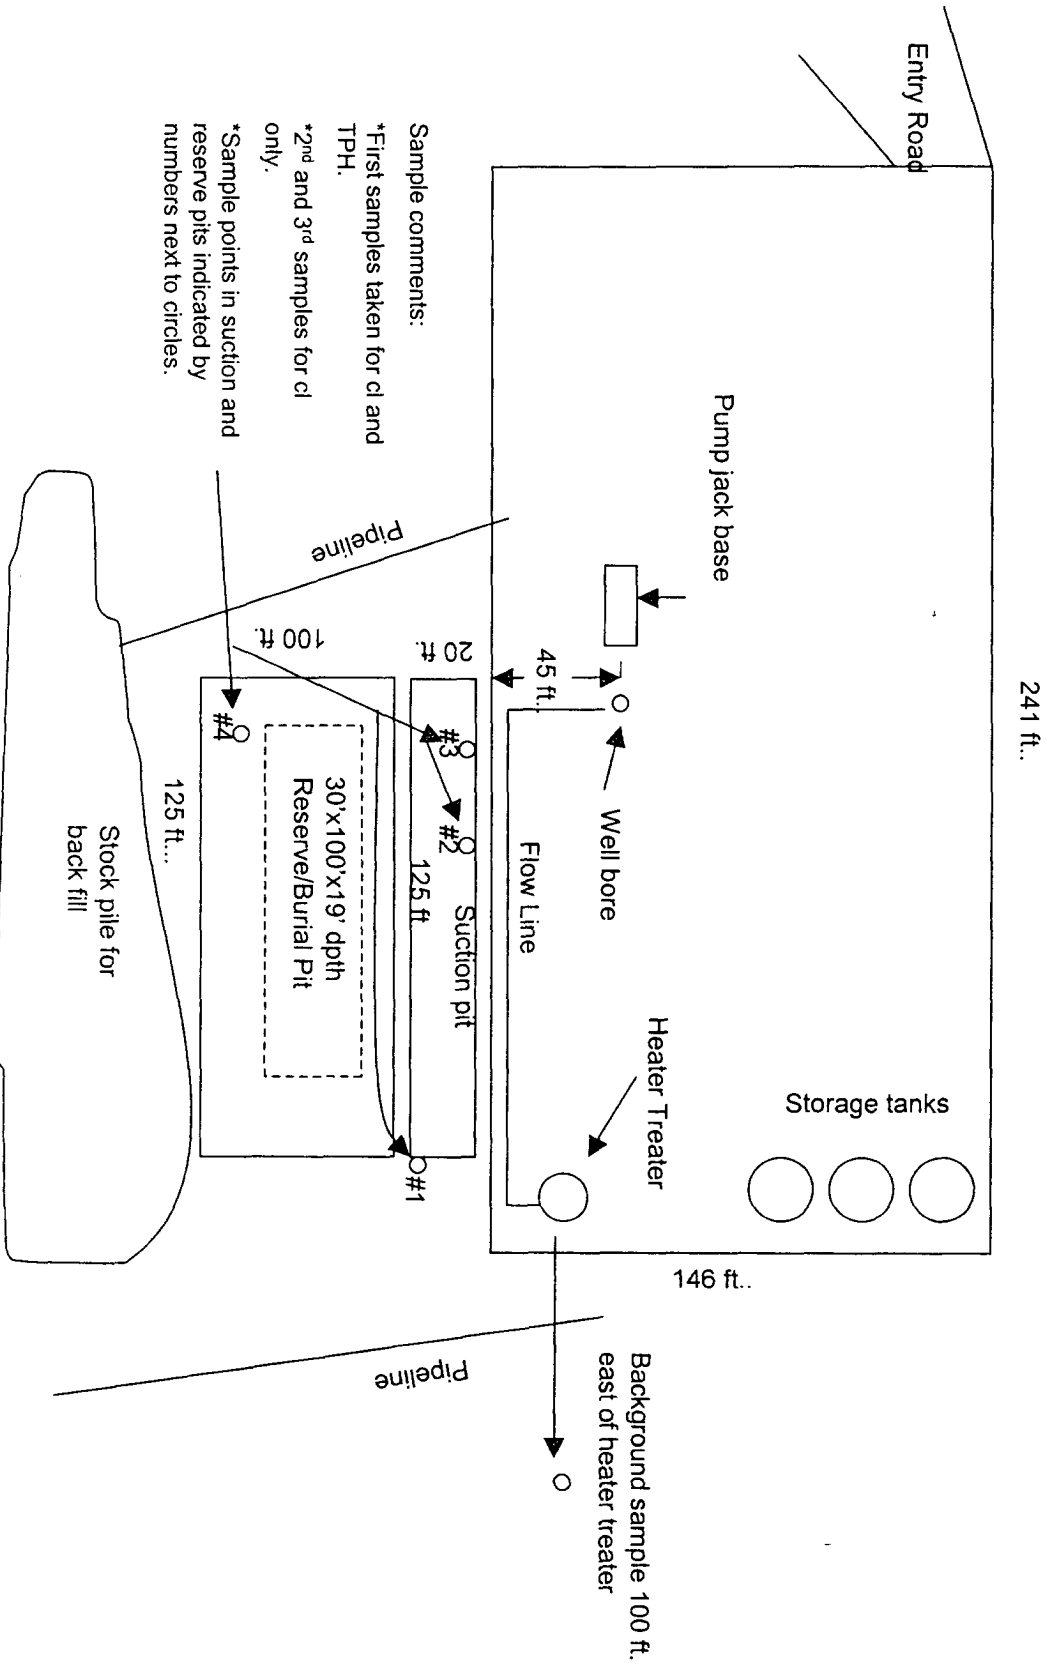

Allstate Environmental Services was contracted by Mack Energy Corp. to commence closure activities of the drilling pits at the Redbud Federal #1 lease in Eddy County on January 6, 2005. As described in the Form C-103 for the Redbud Federal #1, the fluids in the pit were removed and disposed of. The contents were then stiffened and buried per option IV.B.3.(b) of the Pit and Below-Grade Tank Guidelines. Closure of the pits was completed January 16, 2005.

Due to breaching of the original pit liners prior to closure activities, soil samples were taken from points designated by Mr. Tim Gum, director of the District 2 OCD office in Artesia, and analyzed for chlorides and total petroleum hydrocarbon content.
