13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

SWD-1277

APACHE CORPORATION PROPOSES TO:

Drill the Apache State SWD #3 to 7900'; Due to geologic concerns of the Wolfcamp – Cisco formations not being able to take water, Apache Corporation would like to suspend current operations and consider drilling this well into the Devonian or Ellenburger (12,000' to 13,000'). The current rig is not capable of drilling to the proposed deeper depth. Therefore Apache Corporation proposes to set a bridge plug in the bottom of the 9 5/8" casing at approximately 4000' (casing is set at 4453') and move current rig off location while waiting on the availability of a larger rig. Apache Corporation will file for necessary drilling & injection permits during wait period.

Spud Date:

9/19/2011

Rig Release Date:

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
