NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	>150 bbls	Volume Recovered	150 bbls
Source of Release	Truck drivers fell asleep	Date and Hour of Occurrence	04/09/11	Date and Hour of Discovery	04/09/11
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Mike Bratcher		
By Whom?	Natalie Gladden	Date and Hour	04/11/11 304pm		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			
If a Watercourse was Impacted, Describe Fully.* No.					
Describe Cause of Problem and Remedial Action Taken.* COG's line went down and therefore we were trucking the water, two trucks were hauling 24 hrs a day and both went to sleep, which caused the tanks on the trucks to overflow; releasing an unknown volume. We recovered 150 bbls.					
Describe Area Affected and Cleanup Action Taken.* The leak affected the containment floor and the caliche pad of the well location. A temporary monitor well was installed to 50 ft. below ground surface to determine depth to ground water. Red bed was encountered at 35 ft., no water was detected at 50 ft., and the well was plugged in total with bentonite. The leak area was excavated to between 2 ft. and 5 ft. bgs. A total of 2,604 cubic yards was hauled to a NMOCD approved disposal facility and the site was backfilled with clean caliche.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
