Flow Line☐ Change Plans☐ Plug and Abandon☐ Temporarily Abandon☐ Convert to Injection☐ Plug Back☐ Water Disposal

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection)

Yates Petroleum Corporation wishes to replace the existing 3" steel flowline from the Anomone ANE Federal #3 that follows the road to the Anomone ANE Federal #2 location and tank battery. The flowline will be replaced with 3" SDR-11 poly line on surface that will follow the same route along the road as the existing steel line. The pressure on the line will be 90-100 psi.

Attached is a map showing the route of the pipeline.

Accepted for record
