Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This well is capable of producing, although it has to be swabbed, the cost of swabbing the well is about the same as sales due to the price of natural gas at this time. I have been approached by two different oil companies about selling this well for a disposal, and am waiting for them to get back with me. I am requesting that this well be shut-in for 6 months, at the end of this time, I will either return it to production or will have sold it for a disposal well.
