Mewbourne Oil Company is planning to drill the Pecos River 9 Fee #3 (2310'FSL & 330'FEL. Sec 9 T-22S R-27E). Our plans are to run a 'Closed Loop System' so pits will not be needed. To help with this experiment, we would like to dispose the cutting into the approved lined existing pit of the above captioned well. Both wells are on the same lease with the same landowner. This will not extend the closing time for the pit & if any spills occur, clean-up will be immediate.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
