13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

CONFIDENTIAL

CHK would like to state for the record that we are in compliance with Onshore Order #2 in regards to our choke configuration. We have two remotely control adjustable chokes installed. Adjustable choke are flow control devices only and do not exist as shut off valves. In the case of a well control situation, the chokes are used to control flow. If there is a choke failure, the choke can be isolated by the manual valves adjacent to the choke. If the hydraulic lines for the remotely operated chokes fail or lose power, the well can be shut in until the choke is repaired or power is restored.
