13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Operator submits the following for approval:

1. Well will be returned to production within 10 days of suspension of Shut In Order that was in place in March 2005.
2. Well will be tested for 30 days to verify production capability.
3. If well produces 1 BBL of oil per day, well will considered productive with casing tests to follow within 15 days.
4. If casing leak is encountered, appropriate measures to repair casing will be done within 30 days of casing leak test.
5. If well is to be plugged Operator will supply BLM CFO a proposed plugging procedure for approval.
6. Plugging operation will begin within 15 days of return of approved submittal.
