Yates Petroleum Corporation wishes to extend the captioned well's APD expiration date for one (1) year to June 27, 2006.

Sources at Yates Petroleum Corporation have relayed information to me that they believe there will not be enough H2S anticipated from the surface to the Undes. Precambrian formation to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118.

The State Engineers Web Site has been accessed for the captioned well. Information obtained from this web site determines the Site Ranking for this well is 30 points. With this ranking excavation and removal of drilling materials will take place at pit closure.

Thank you,

GAS AND WATER BEARING
