13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**BOPCO, L.P. respectfully requests the following change for the above captioned well:**

**Deepen the 8-5/8", 32#, J-55, LTC intermediate casing to a depth of 3,972'. Based on offset data and interpretation, our geology department believes the top of the Lamar will be at 3,962'. This will place us 10' inside of the Lamar formation providing a competent casing shoe for the remainder of the well. Cement will be circulated to surface as per COA.**
