13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

1-11-13

MYCO Industries, Inc. respectfully requests a variance to the painting condition of approval for the captioned well. We request to maintain the existing BLM tan color as the offset facilities are the same.

We have also attached for your files an updated site facility diagram as built. This differs from the original diagram provided in the APD as the original site was on a down slope and subject to erosion.

Upon approval of this Sundry Notice, the location will be ready for final inspection.
