13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Due to an unacceptable level of Nitrogen found in the gas from this specific well, it has been necessary to temporarily Shut-In this well. It is our understanding that Transwestern has dictated the "acceptable level" of nitrogen in the gas they accept from Agave Energy Company (Purchaser).

It should be noted that nitrogen is inherently found throughout the Pecos Slope Field.

ACCEPTED FOR 12 MONTH PERIOD  
ENDING JAN 31 2014  
ACCEPTED FOR RECORD  
NMOCD14. I hereby certify that the foregoing is true and correct. Name (Printed/Typed)
