13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or to recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**AMENDED TO INCLUDE ADDITIONAL INFORMATION**

Interim Reclamation was done 1/4/13. The location was downsized to a 250 ft x 250 ft pad. The location will be seeded in June prior to the anticipated rainy season.

Included is an attachment with the updated Interim Reclamation plat that can be used to amend the APD to reflect the accurate pad. We will not need to build a battery on this location as we can utilize an existing facility. Updated facility diagram attached.
