13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

4/1/2013 Rigged up cement pump on casing head. Pumped 50 bbls brine down well with minimum pressure. Pumped 100 sx class c cement down 3 1/2" liner and displaced to 450'. SION.

4/2/2013 Opened up casing head. Well was on a strong vacuum. Pumped 30 bbls brine down well and started catching pressure. It should have taken 26 bbls to load 3100' of 3 1/2" pipe. Nipped down well head and found that there was no 3 1/2" liner. Moved in pulling unit and rigged up and installed BOP. Moved tubing from the Diamond St #1 and RIH with bit and scraper. Tagged up at 1659'. Circulated hole with mud and spotted 25 sx class c cement at 1659'. POOH and SION.

4/3/2013 RIH and tagged cement at 1359'. POOH to 405' and circulated cement to surface. Rigged down, cut off wellhead, installed marker and cut off anchors

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
