13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex Energy respectfully requests approval to change the well pad size for the drilling of the well. Please see attached diagram.

Cimarex has approval to build a pad that is 170' on three sides and 130' on the short side. Due to the size of the rig Cimarex proposes to change the pad size to 190' on three sides and 130' on the short side as indicated on the attached diagram. The proposed pad size is a minimum requirement for the rig.

The reclamation of the pad would remain the same at 260' X 290'.
