NATURE OF RELEASE

Type of Release	Oil and produced water	Volume of Release	2bbls of oil 3bbls produced water	Volume Recovered	0bbls of oil 0bbls of produced water
Source of Release	Polyline	Date and Hour of Occurrence	11-04-2013	Date and Hour of Discovery	11-04-2013 1:18pm
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
Polyline connection failed on header. Replaced 25' of polyline going to the header.

Describe Area Affected and Cleanup Action Taken.*
Initially 2bbls of oil and 3bbls of produced water was released due to a polyline failure. We were unable to recover any fluid. The spill was in the adjacent pasture. Tetra Tech will sample the spill site area to delineate any possible contamination from the release and we will present a work plan to the NMOCD/BLM for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
