13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, L.P. respectfully requests to change the 7" casing DV, tool depth from 5000' to 4500'. Drilling experience in the area shows a lost circulation zone below 4500'. The change in the DV tool set depth is being requested to help ensure the circulation of cement to surface. The following changes in cement volumes are being proposed to accomodate the change in stage tool depth:

7" casing Stage 1: Lead- 500 sks, Tail- 150 sks. 11,192' - 4,500' MD  
Stage 2: Lead- 360 sks. 4,500' - Surface

No change will be made in approved cement slurry properties.

**Original COA still Applies**
