Daniel Jones,

As per our conversation June 15, 2014. Your two Approvals to commingle were signed approved without a proper review as per Pecos Districts IM-NMPO-2013-02. We are sorry for any inconvenience which this may lead to. The Sundry, Notice of Intents will have to be resubmitted with all required information. A Guide to Commingling was e-mailed to you on 5/15/14 by Duncan Whitlock of the Carlsbad Field Office. Please feel free to contact me if you have any question and we will work with you to get this resolved as soon as possible.

Sincerely,

Jerald Duncan Whitlock Jr.

If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Premier Oil and Gas respectfully requests approval to combine crude oil produced from separate leases. Premier proposes to commingle Yeso production from the Dale H. Parke C #23 with the production of the Parke "D" (NMLC0029020D) via it's own separate header, treater, and gas meter. The commingle crude oil will be transported to the Dale H. Parke "A" Tank Battery via a Lact Unit. This commingling agreement follows the same general plan as the original request made on July 11, 2001 for the Parke "C" and "D" leases approved by the BLM. An updated site facility diagram has been provided showing the location of the headers and separator for the Parke "C" #23 and #24.
