Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Burnett Oil requests permission to change the size of the flowline for this well, previously approved in the APD Surface Use Plan. We would like to change from an above ground 3" low pressure SDR7 4710 poly pipe with a typical working pressure of 60 psi to an above ground 4" low pressure SDR7 4710 poly pipe with a typical working pressure of 60 psi. The SDR7 4710 poly pipe has a maximum pressure rating of 335 psi. The direction and length of the flowline will not change.
