13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Co., L.P. respectfully requests permission to move the pad 30 feet to the west as we took 30 feet off the east side do to the close proximity of the BPL and SWD line. Moving the pad 20 feet to the south as to allow appropriate space for rig size and equipment location.

The SHL did not move on this well. It's a very tight area that needed minor adjustments to stay away from the current ROW's and to accommodate the Scan-Texas Rig.

Attached please find the revised survey plats.
